DAY 1

Blue hole and colored canyon in Sharm El Shikh Day trip

Blue hole and colored canyon in Sharm El Shikh Day trip.

Day Tours Egypt professional tour leader will meet you at the hotel lobby to begin one of our remarkable Sharm El Sheikh excursions. The tour includes a visit to the colored canyon of Sharm El Sheikh and the blue hole of Sharm El Sheikh. Our tour leader will transfer you by an exclusive, air-conditioned private car to the port, where you will board your boat. The snorkeling adventure in the blue hole will commence.

In the past, this location was avoided by the Bedouin tribes residing in the area due to a legend that circulated among them.

It was believed that a curse from the ghost of a girl who took her own life, as she refused to marry against her will, was associated with the place. Despite this, the Bedouins would occasionally practice recreational diving, usually limited to a depth of 40 meters. However, some divers claim that the remaining 12 meters are not an issue at all.

After the snorkeling activity, the boat will cruise back to the jetty, where our agent will be waiting to collect you.

You will then be taken to the colored canyon for your safari experience.

The Colored Valley is one of the natural wonders located in Taba, Sinai.

The valley is a complex network of sandy rocks in shades of yellow, purple, red, and gold. In certain areas, the height of these rock formations can reach up to 40 meters. The valley captivates visitors with its incredible beauty and, at the same time, its inherent danger.

Finally, you will be taken all the way back to your hotel.
