DESCRIPTION

Giza Pyramids and Dahshur Pyramids

To understand how the Great Pyramids of Giza were built, imagine traveling back in time about 200 years before the reign of King Cheops, who constructed the Great Pyramid of Giza.

This structure remains a source of fascination for scientists to this day.

Our Cairo Day Tours take you to the sacred necropolis of the ancient Egyptian capital during the Old Kingdom. You will see the first perfectly shaped Red Pyramid and the Bent Pyramid at Dahshur, along with the pyramid of Snefru, also known as the Meidum Pyramid. These impressive structures, built almost 4,700 years ago, were created to honor the kings and rulers of ancient Egypt and to ensure their names were remembered by future generations.

During your visit to the Giza Necropolis, you can explore the Great Pyramids of Cheops, Chephren, and Mycerinus, as well as the Great Sphinx, a unique figure with the body of a lion and the head of a human.

You will also have the opportunity to visit the Valley Temple of King Khafra, which played a role in the mummification process as part of ancient Egyptian funeral rites.

Lunch is included during your Egypt Day Tours or at the conclusion of your Cairo Trips. During a special day trip from Cairo, you will also visit Memphis and Dahshur.

The Egyptian Museum in Cairo houses a vast collection of artifacts and antiquities that span back to ancient Egypt and beyond.

This tour offers an engaging and in-depth experience, allowing you to discover the unique wonders of Egypt, from the famous Pyramids of Giza to the Red Pyramid and the Pyramid of Meidum.

This journey offers a glimpse into the rich and fascinating history of this enchanting country..
