## Giza Pyramids Stopover Tour

Cairo day trips offer an exciting experience with the Giza Pyramids Stopover Tour, a memorable highlight among the top attractions in Cairo, Egypt.

This tour allows you to explore the remarkable trio of pyramids in Giza — the largest, built for King Cheops, the middle one for King Chephren, and the smallest for King Mycerinus, also known as Men-Ka-Ra in Hieroglyphs. You will also visit the Valley Temple, which overlooks the impressive Great Sphinx. As an added option, you can enjoy a camel ride around the Giza Pyramids, ideal for taking beautiful photographs. These structures were used as tombs for pharaohs and queens, and after their deaths, they were buried inside. Mummies were placed in the pyramids along with the treasures and tools they would need in the afterlife.

Cairo excursions are perfect for travelers with any schedule, and Cairo day tours from the airport provide an excellent opportunity to see the best of Cairo's treasures.

Most of the famous pyramids were built during a significant period in ancient Egyptian history called the Age of the Pyramids, or the Pyramid Age. This time frame coincided with the Fourth Dynasty of the Old Kingdom, which ruled from approximately 2613 BCE to 2494 BCE. In ancient Egypt, King Khufu was considered the second ruler of the Fourth Dynasty.
