DESCRIPTION

Memphis and Dahshur Day Trip

Explore one of the various tours available in Cairo designed to cater to everyone interested in history and culture, as well as those seeking fun and adventure.

This tour is highly recommended, though it is less popular than the well-known Giza Pyramids tours. The Cairo Tour to Dahshur and Memphis offers you the chance to visit the ancient necropolis in Dahshur, where you can see the two pyramids built by King Snefru. He was the father and role model of King Cheops, who was inspired by him to construct the largest stone structure in the world, the Great Pyramid of Khufu in the Giza Necropolis.

Additionally, you will have the opportunity to visit the open-air museum of Memphis, which is considered the oldest capital in Egyptian history, and possibly in the history of humanity. Memphis was established around 5,000 years ago, following the unification of the two kingdoms of Egypt by King Menes.
