DESCRIPTION

A Day Trip to Abu Simbel from Cairo | Cairo to Abu Simbel Flight Tour

The Abu Simbel temples are a highlight of any visit to Cairo, so if you're traveling from Cairo to Aswan, this flight tour is a great choice.

These are two massive temples carved directly from the rock, built by Ramses II to honor his wife, Nefertari. These temples are truly impressive and are considered some of the most important sites in Egypt. They were moved to avoid being submerged by Lake Nasser, which was created when the Aswan Dam was constructed. On this Day Trip to Abu Simbel from Cairo, you will fly from Cairo to Abu Simbel and then take a guided tour of the temple complex.

You will have the chance to explore the Great Temple of Ramses II, as well as smaller temples dedicated to Nefertari and Hathor. Your guide will provide an overview of Egyptian history and culture, along with details about the construction and history of the temples.

Participating in Aswan Day Tours and visiting the Abu Simbel temples is a unique experience. It allows you to dive into Egypt's rich pharaonic heritage and admire the incredible architecture of these two remarkable temples.
