DESCRIPTION

At **Lahun Pyramid tour from Cairo** you can explore the pyramid complex of King Senusret II. This site shows off a kind of pyramid design compared to the big ones at Giza. You'll get to see how it was built and learn about the settlement nearby. The ruins tell stories of life in the Middle Kingdom not just about kings and gods.

At Lisht you'll find the pyramid complex of King Senusret I. This is another Middle Kingdom monument. There are remains of tombs, temples and other structures. These show how pyramid building evolved over time. The site is not as crowded. That means you can walk around quietly and take your time to take in the details.

These sites are not on the tourist path. They don't get many visitors as Giza, Saqqara or Dahshur. That makes them a great choice if you want a peaceful and personal experience. You can see things up close without the crowds.

On this **Lisht Pyramid day tour** with Egypt Day Tours**,** your Egyptologist guide will share knowledge, about the Middle Kingdom. You'll learn about the kings who ruled how they built these pyramids and what their monuments meant. The guide will help you see how these places shaped Egyptian culture and architecture.

Day Tours Egypt offers an adventure that is part of our Cairo Day Tours. Day Tours Egypt invites you to explore Egypts past by visiting hidden archaeological treasures.

ITINERARY

DAY 1

Lahun and Lisht Pyramids Egypt tour

Your Day Tours Egypt tour guide will pick you up from your hotel in Cairo. Drive you into the Faiyum region. This is a chance to explore some of Egypt's known ancient sites away from the usual tourist crowds.

Your first stop will be the **Pyramid of Lahun**. This pyramid was built for Pharaoh Senusret II 4,000 years ago. Unlike the stone pyramids of Giza the Pyramid of Lahun was made mostly of mudbrick with a limestone core. Your guide will explain how it was built, its history and the workers' town. This town is one of the preserved settlements from the Middle Kingdom period.

Next you will continue your **Lahun and Lisht Pyramids Egypt Tour** to Lisht. Here you will see the pyramids of Amenemhat I and Senusret I. These were built after the royal capital moved to this area at the beginning of Egypt's Middle Kingdom. The desert around Lisht is filled with tombs and archaeological remains. You will get an understanding of the history, culture and development of ancient Egyptian civilization.

Because these sites are visited by fewer tourists than the pyramids of Giza you can enjoy a quieter and more authentic experience. There will be plenty of time to explore and take photos without large crowds getting in the way.

After your visit you will be transferred back to Cairo.
