DESCRIPTION

The Dahshour Pyramids are among the most distinctive attractions in Egypt. Unlike the more well-known Giza Pyramids, they feature a different architectural style, making them a fascinating site to visit. We will spend time exploring these intriguing monuments before heading to the felucca. A felucca is a traditional Egyptian sailboat, and it offers an ideal way to enjoy the Nile River. We will cruise along the water, experiencing the sights and sounds of Cairo from a unique vantage point. It is a relaxing way to view the city from a different perspective. You can try this experience with our Egypt Nile cruise tours. A journey along the River Nile is a remarkable adventure that allows you to discover the beauty of the world's longest river and its stunning landscapes.

This is an excellent way to see some of Egypt's most iconic attractions in a short period.
