DESCRIPTION

Giza Pyramids with Felucca Ride in Maadi Day Tour

The Giza Pyramids were built to last forever, and they have.

These massive tombs, which date back to the Old Kingdom of Egypt, were constructed around 4,500 years ago. Cairo Top Tours offers Egypt tours that allow you to explore the Giza Pyramids and other historical sites. The pharaohs of Egypt believed they would live forever as gods, so they built temples for the gods and large pyramid tombs for themselves as part of their preparations for the afterlife. These tombs were filled with everything a ruler would need to govern and survive in the afterlife. With our Egypt day tours to the Giza Pyramids and a felucca ride on the Nile, your wheelchair-accessible day tours in Egypt will be unforgettable, offering you the chance to see many highlights. You can choose from our wide range of Egypt travel packages, including our recommended and popular tours that include several historical sites. We will help you experience the grandeur of ancient Egyptian history. You will be amazed to stand where the Great Sphinx and the Giza Pyramids, also known as the Necropolis of Giza, were built over 4,500 years ago. The massive stone blocks and this ancient civilization will leave you in awe. Enjoy your Cairo wheelchair-accessible tours, which will introduce you to the highlights of Cairo and provide you with different information about Egypt and its culture. Also, you will have the opportunity to see the beauty of Egypt.
