DESCRIPTION

Enjoy our remarkable Egypt tours that include the Giza pyramids of Cheops, Chephren, and Mycerinus, the Great Sphinx of Giza, which features the head of a pharaoh and the body of a lion, and the great Valley Temple of King Chephren. When you think of Egypt, the pyramids are the first thing that comes to mind during Egypt day tours. No other country in the world has structures as impressive as those found there, and the pyramids are almost the only buildings linked to as many myths. There is still debate among researchers about the intended use of the pyramids and how they were built. We will take you to learn more about the Great Pyramid of Giza, also known as the Cheops Pyramid, the Pyramid of Khafre, also known as the Chephren Pyramid, the Pyramid of Menkaure, also known as the Mycerinus Pyramid, and the Great Sphinx of Giza. The Giza Pyramids complex is located in Greater Cairo, in the Arab Republic of Egypt.

During your Egypt Wheelchair Accessible day tour, you will also visit Saqqara, known as Egypt’s oldest pyramid, the Step Pyramid of Djoser, which is famous and attracts many tourists during their Egypt Travel Packages. It is the oldest pyramid ever built in the context of Egyptian civilization. Saqqara Necropolis, also known as Egypt's Oldest Pyramid, was a special place where the kings and queens of ancient Egypt were buried before the third dynasty. We will also take you to the Ahmad Ibn Tulun Mosque, which is the oldest Islamic structure in Egypt, and then to the Gayer Anderson Museum.

Visiting the National Museum Of Egyptian Civilization (NMEC) will allow you to have a fun and educational adventure, giving you an opportunity to explore all the amazing things from Egypt's history. It's like taking a journey back in time.
