DESCRIPTION

Wheelchair Accessible Alexandria Trip from Cairo

Enjoy an exceptional tour departing from Cairo to discover the beautiful city of Alexandria.

Founded by Alexander the Great in 332 B.C., Alexandria was the capital of Egypt during the Greco-Roman period and was known as a center of knowledge and culture, rivaling the great Greek cities.

Our private wheelchair-accessible tour starts early in the morning and takes you to some of Alexandria's most iconic sights.

You will explore the city from a vantage point over the Mediterranean Sea, visiting highlights such as Pompey's Pillar, the Catacombs of Kom El Shoqafa, and the Bibliotheca Alexandrina, which was once a famous center for learning and scholarship. The tour also includes a visit to the Citadel of Qaitbay, a fortress built to protect Egypt's northern coastline.

Following the tour, you will have the opportunity to enjoy a delicious seafood lunch at a highly-rated restaurant with a view of Alexandria's harbor, offering a genuine taste of traditional Egyptian food.

Book our private guided Cairo to Alexandria wheelchair-accessible tours today to benefit from our special promotions and create memories that last a lifetime.
