Description

Valley of the Whales and Wadi El Rayan Waterfalls Day Tour

Wadi El Rayan Waterfalls and the Valley of the Whales are two of Egypt’s most breathtaking natural attractions that you will explore on an exciting day trip.

Here is a summary of the tour:

Begin your journey by visiting the Valley of the Whales, also known as Wadi Al-Hitan, situated in Egypt’s Western Desert.

This UNESCO World Heritage Site features an amazing display of fossilized whale remains, offering a unique insight into the evolutionary history of these large marine animals. Take the time to admire the well-preserved fossils and gain knowledge about the ancient sea life that once thrived in this region. Following this, travel to Wadi El Rayan, a protected area famous for its beautiful waterfalls and scenic landscapes. Enjoy the sight of water flowing down the rocks, creating a peaceful and refreshing spot in the desert. You can take a cooling swim in the clear waters or simply unwind and appreciate the natural beauty of the surroundings.
